11A	Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate without UV exposure	6.22%
11B	Products with intended skin contact but minimal transfer of fragrance to skin from inert substrate with potential UV exposure	6.22%
12	Products not intended for direct skin contact, minimal or insignificant transfer to skin	Not Limited

PLEASE NOTE:

For use in other applications or use at higher concentration levels, a new safety evaluation may be needed. Please contact us.

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the Research Institute for Fragrance Materials (RIFM) and are enforced by the IFRA Scientific Committee.

Evaluation of individual fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice. It is the ultimate responsibility of our customer to ensure the safety of the final product (containing the fragrance) by further testing if needed.
